

## **Innovation Law Lab Project (March 2022 - April 2022)**

Simple project helping lawyers to expedite document's processing, using a simple, easy-to-learn interface, powerful data and search features to enable users to get work done efficiently, reducing the time to completion for Immigration document processing.

Private Github Repository

### **Features developed by me:**

- Sucker Punch Jobs Implementation
- Eoir Model to handle API Calls
- Styling for all the Views
- Adding CSV validation
